Hi Phoebe

Thank you for sending the proposed assessment approach for the Peartree Hill Solar Farm project. I am happy with the methodology and have little cause for concern regarding local air quality due to the nature of the development and the remoteness of the site. Any issues are likely to be very localised during the site clearance, preparation and installation phases, these can be addressed through the IAQM construction assessment as you've proposed.

I look forward to reviewing the final AQA once the planning application is submitted.

If you have any other questions then please get in touch  
Jon
